REMARKS

In an efficiency report submitted April 14, 1941, Mr. Soucy stated Callahan is a better than average Agent for one of his experience. He appears to have the basic requirements for development along administrative lines, is conscientious, enthusiastic and possessed of a better than average background in Bureau policy. He is qualified to perform a good volume of work with limited effort. He is considered better than average.

In a memorandum dated May 27, 1941, Mr. Glavin stated since Callahan's assignment to his office he has been handling clerical briefs and his production is satisfactory. (From time to time he will forget instructions issued to him but all in all his services have been most satisfactory. He is enthusiastic, works long hours voluntarily and is doing a good job. There is no question concerning his attitude and loyalty.

RECOMMENDATION

In a conversation with Mr. Glavin he recommended in the event this Agent has been in the Service for a sufficient period that he be considered for a reallocation and recommend he be reallocated from Grade CAF-10 \$3500 to Grade CAF-11 \$3800.

The above-mentioned agent has been assigned to the Chief Clerk's Office since April 9, 1941. It will be recalled that he previously was assigned to this office in a clerical supervisory capacity.

Callahan during his period of assignment here has been assisting Special Agent Lee in the preparation of Special Agent briefs. Recently I have assigned him to handle clerical briefs entirely. His production in this regard is satisfactory. From time to time, he will forget instructions which have been issued to him, making it necessary for such instructions to be again issued. All in all, his services have been most satisfactory. He is enthusiastic, working long hours voluntarily and his doing a good job. There is no question about his attitude and loyalty to the Director and the Bureau.

Re: N. P. CALLAHAN, SPECIAL AGENT (A)
SPECIAL EFFICIENCY REPORT

In view of the writer's departure from the Baltimore Field Division, this report is being prepared.

A Special Efficiency Report regarding this Agent was submitted on November 15, 1940. Since that time he has been transferred to the Bureau. As I indicated in my Efficiency Report, I feel that he is a better-than-average Agent for one with his experience. Since last reporting on him I have had occasion to observe more carefully his ability along administrative lines and feel that he has the basic requirements which will permit his development in this respect.

He is conscientious and enthusiastic in his work and is possessed of a better-than-average background in Bureau policy. He is qualified to perform a good volume of work with limited effort, and from all indications he will continue to show improvement with further training. I consider him better-than-average with better-than-average prospects.

Re: H. P. Callahan
Special Agent (A)

Dear Sir:

Reference is made to your letter dated January 16, 1941, indicating the necessity for Special Agent (A) H. P. Callahan's being used on general assignment for an excessive period during December, 1940.

There is an unusually large amount of accounting work pending in your district, totaling 150 days. There are only two Accountants assigned to your office, and it is believed the best interests of the Bureau require the retention of the Accountants in your district on accounting work.

The Bureau is instructing you to retain the Accountants assigned to your office on accounting assignments, and will not tolerate their further use on general investigative assignments in the absence of specific authorization.

Very truly yours,

John Edgar Hoover
Director

Dear Sir:

Reference is made to Bureau letter dated January 9, 1941, requesting to be advised of the reason why Special Agent (A) N. P. Callahan was used on general assignment for an excessive period during the month of December, 1940.

This is to advise that during the month of December, 1940, this Agent was engaged in surveying the National Defense cases in this Office for the purpose of obtaining statistical data and the preparation of a chart. Agent Callahan was also used to prepare statistical data in connection with National Defense Confidential Informants, as well as performing work on Bankruptcy and Bank cases assigned to him.

I wish to advise that I have been unable to allow this Agent to concentrate more on cleaning up the accounting work in this Office the way I should like to in view of the fact that he is one of the three oldest men in the Bureau presently assigned to this Office and it is necessary to use him on those cases where it would not be to the best interest of the Bureau to use one of the newer Agents assigned here. In this connection, I again request the Bureau to allow me to use this Agent to deliver the few remaining Bureau letters of recommendations to the plants in this district as this will not take up all of his time and will allow him sufficient time to work on the accounting cases assigned him.

You are further advised that every effort will be made in the future to see that this Agent devotes more time to the accounting work assigned him.

In an efficiency report dated August 26, 1940, SAC Kitchen stated this Agent handles the investigations of a general nature assigned to him on occasion with thoroughness and dispatch and exhibited same rate of progress in this type of work as he did in his accounting investigations.

In another letter dated August 26, 1940, SAC Kitchen stated that Agent Callahan dresses neatly, is well mannered and is a personable, intelligent young man who has won many friends among law enforcement officers. He is a good typist, automobile driver and dictator. His attitude is excellent, he can always be relied upon and is considered an asset to the office. His investigations were thorough and satisfactory and in general work he acquitted himself admirably.

SAC Soucy in a letter dated November 15, 1940, stated this Agent handles all types of Bureau assignments with most satisfactory results. He feels that he is a better than average Agent for one with his training. He has a confident attitude, his work requires but a minimum of supervision, his judg-

Re: H. P. Callahan
Special Agent Accountant

Dear Sir:

Reference is made to your letter dated December 27, 1940, in which you state the above Agent is being given the assignment of delivering to plant officials in your district the recommendations based on previously conducted plant surveys.

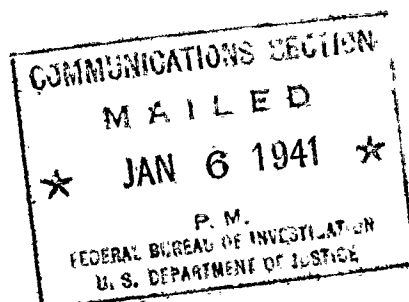

I desire to invite your attention to the fact that the accounting work in your district is particularly in need of investigative attention. Your monthly administrative report for November, 1940, indicated six delinquent accounting cases, the investigation of which will require 100 days to complete. During November, Accountants were used in your district for 44 days on general assignments and for only 35 days on accounting assignments.

It is obvious this condition cannot continue. Agent Callahan was transferred to your district for the specific purpose of assisting in bringing the delinquent accounting work up to date, and his services are not to be used on assignments other than accounting for any period in excess of five days during any calendar month without the specific authorization of the Bureau.

Dear Sir:

Re: N. P. CALLAHAN
SPECIAL AGENT (A)

The above named Special Agent for the last few days has been delivering to plant officials in this district Bureau recommendations based upon previously conducted plant surveys. This has been occasioned by the absence from this district of men who previously conducted the plant surveys and who were in this district temporarily on special assignment.

It was believed necessary that an Agent qualified in plant surveys, as he is, should handle the delivery of recommendations, and unless contrary instructions are received from the Bureau, it is planned to continue this practice instead of delegating the assignment to other Agents likewise unfamiliar with the plant and performing the sole function of delivering recommendations.

In restricting this assignment to one Agent, which, of course, does not require all of his time, he acquires a familiarity with the recommendations generally and a confidence of having delivered several of them and having discussed them in detail. This, I believe, is a better practice than having separate Agents perform this function in isolated instances. It affords, in addition to this, an opportunity for an Agent assigned to this Office to familiarize himself with the general conditions in the various plants surveyed by Agents from other districts.

This Agent was selected for this assignment since he is the only Agent not specifically assigned to other work and is the only one aside from the men detailed exclusively to National Defense matters with the exception of F. S. BAUKNIGHT, an accountant engaged in Court of Claims investigations, who has been in the Bureau for any appreciable length of time. None of the others due to their limited length of service is believed qualified to handle this assignment.

MEMORANDUM FOR MR. TOLSON

RE: NICHOLAS P. CALLAHAN
Special Agent (A)

Entered on Duty - March 4, 1935, as Clerical Employee
June 26, 1939, as Special Agent
Present Grade and Salary - Caf-9, \$3200
Present Assignment - Baltimore, Maryland
Marital Status - Married

A telegram has been received from Mr. Soucy advising that this agent has received his Selective Service Questionnaire which is to be returned by December-2, 1940.

This employee's service in a clerical capacity was entirely satisfactory. He received four efficiency ratings of very good and one of excellent. Since being appointed a Special Agent he has continued to progress. Various Special Agents in Charge under whom he has worked have indicated that he is showing at least average progress. At an in-service training school in May, 1940, Mr. Hince reported that this agent was developing satisfactorily, had average intelligence and a rather good personality. Special Agent (A) [redacted] advised that this agent has a good understanding of the principles of accounting. This agent requested that he be permitted to remain in Baltimore until at least March or April in view of his wife's expected confinement. Mr. Soucy reported in November, 1940, that this agent's work requires a minimum of supervision, he has a good understanding of Bureau policy; and that he has characteristics which might make it possible for him to assume administrative or executive responsibilities at an early date. Mr. Soucy advises that he is a better than average agent for one with his training.

In the event the Director desires to recommend this agent for deferment because of occupation there is submitted herewith a memorandum for Mr. McGuire together with D.S.S. Form 42. He will, no doubt, be placed in class 3-A, deferment because of marital status.

NICHOLAS P. CALLAHAN

I am the Assistant to the Attorney General, United States Department of Justice.

The Federal Bureau of Investigation, United States Department of Justice, has been designated by the President to take charge of investigative work in matters relating to espionage, sabotage and violations of the neutrality regulations. This Bureau is also charged with the duty of investigating other matters bearing upon the maintenance of the internal security of the United States. The duties thus imposed upon this Bureau constitute a vital function in the national defense program of this country.

Nicholas P. Callahan is a trained Special Agent and has been continuously employed by the Federal Bureau of Investigation since March 4, 1935. He cannot be replaced satisfactorily because of the shortage of persons with his qualifications and experience in such activity, and his removal for inaction would cause material loss of effectiveness in the conduct of the national defense work of the Federal Bureau of Investigation.

Dear Sir:

Re: N. P. CALLAHAN, SPECIAL AGENT (A)
SPECIAL EFFICIENCY REPORT

This Agent, since reporting to this office, has been assigned to Bankruptcy and other matters of an accounting nature, recently handling two Plant Surveys in this district. He handles all types of Bureau assignments with most satisfactory results. I feel that he is a better than average Agent for one with his training and should show consistent improvement as time goes on. (He has a confident air for a small man and reveals qualities of confidence and assurance which make it possible for him to create a favorable impression upon first meeting.)

His work requires but a minimum of supervision. He appears to have a good understanding of Bureau policy, his judgment is good, and he appears to reveal characteristics which might make it possible for him to assume administrative and supervisory responsibilities at an early date. An effort will be made to afford him training with the object in mind of developing any latent qualities in this respect.

Very truly yours,

E. A. SOUCY

Callahan is 26, married, and has been in the field for one year. He is small in stature, makes an alert and satisfactory personal appearance. He is an accountant who seems to have his feet on the ground, to have a good personality, and to be well adapted to the Bureau's work. Since he left Training School he has made satisfactory progress in development of personal qualifications. I think he should do well with additional experience. At present he does not exhibit any supervisory qualifications.

THE FBI PLEDGE FOR LAW ENFORCEMENT OFFICERS

Humbly recognizing the responsibilities entrusted to me, I do vow that I shall always consider the high calling of law enforcement to be an honorable profession, the duties of which are recognized by me as both an art and a science. I recognize fully my responsibilities to defend the right, to protect the weak, to aid the distressed, and to uphold the law in public duty and in private living. I accept the obligation in connection with my assignments to report facts and to testify without bias or display of emotion, and to consider the information, coming to my knowledge by virtue of my position as a sacred trust, to be used solely for official purposes. To the responsibilities entrusted to me of seeking to prevent crime, of finding the facts of law violations and of apprehending fugitives and criminals, I shall give my loyal and faithful attention and shall always be equally alert in striving to acquit the innocent and to convict the guilty. In the performance of my duties and assignments, I shall not engage in unlawful and unethical practices but shall perform the functions of my office without fear, without favor, and without prejudice. At no time shall I disclose to an unauthorized person any fact, testimony, or information in any pending matter coming to my official knowledge which may be calculated to prejudice the minds of existing or prospective judicial bodies either to favor or to disfavor any person or issue. While occupying the status of a law enforcement officer or at any other time subsequent thereto, I shall not seek to benefit personally because of my knowledge of any confidential matter which has come to my attention. I am aware of the serious responsibilities of my office and in the performance of my duties I shall, as a minister, seek to supply comfort, advice and aid to those who may be in need of such benefits; as a soldier, I shall wage vigorous warfare against the enemies of my country, of its laws, and of its principles; and as a physician, I shall seek to eliminate the criminal parasite which preys upon our social order and to strengthen the lawful processes of our body politic. I shall strive to be both a teacher and a pupil in the art and science of law enforcement. As a lawyer, I shall acquire due knowledge of the laws of my domain and seek to preserve and maintain the majesty and dignity of the law; as a scientist, it will be my endeavor to learn all pertinent truth about accusations and complaints which come to my lawful knowledge; as an artist, I shall seek to use my skill for the purpose of making each assignment a masterpiece; as a neighbor, I shall bear an attitude of true friendship and courteous respect to all citizens; and as an officer, I shall always be loyal to my duty, my organization, and my country. I will support and defend the Constitution of the United States against all enemies, foreign and domestic; I will bear true faith and allegiance to the same, and will constantly strive to cooperate with and promote cooperation between all regularly constituted law enforcement agencies and officers in the performance of duties of mutual interest and obligation.

The initial report submitted in the Field by SAC Conroy indicated this Agent, particularly for a new Agent, seems to have a knowledge of pertinent essentials of an investigation. His reports reflect he possesses fairly good judgment and secures material facts. It was further indicated Callahan presents a pleasing appearance, seems to have gotten along well with Federal Officials and local law enforcement officers. In a subsequent report SAC Conroy indicated Callahan has made very satisfactory progress on general investigative matters, is capable of handling an average investigation in a thorough manner, and possesses the ability to diagnose the average problem and arrive at logical conclusions. He did not require any unusual amount of supervision.

In the annual efficiency report submitted by SAC Untreiner, he stated he believed Callahan to be a good man with promise of developing into a good Accountant. SAA White, under whose supervision he worked on the bankruptcy squad, indicated Callahan develops his investigations along logical lines, his work papers are prepared in a very neat and orderly manner and his reports are prepared in good form and clearly reflect the results of his investigation.

In two letters dated August 26, 1940, SAC Kitchen indicated this Agent was well mannered, personable, intelligent, and has won many friends among law enforcement officers. His attitude was excellent and he could be relied upon and was considered an asset to the office. He conducted his investigations with dispatch and his work was thorough and satisfactory. Just prior to his transfer from Newark he was able to work bankruptcy cases with practically no supervision. In the general investigative work assigned him occasionally he acquitted himself admirably, and he exhibited the same rate of progress in this type of work as he did in his accounting investigations.

It is believed the progress of this Agent has been sufficient to justify a \$100.00 increase, but no recommendation is being made at this time due to the fact his progress has not been sufficiently rapid to increase his salary to CAF 10, \$3,500.

Respectfully,

E. A. Tamm

Special Agent (A) NICHOLAS P. CALLAHAN.

Dear Sir:

This Agent was assigned to this office from February 1 to August 15, 1940. Due to my extended absence from this office on sick leave, my personal contact with this Agent was very brief.

I have consulted with Special Agent John T. Madigan who was Acting Special Agent in Charge in my absence, who informs me while Agent Callahan was assigned to this office, he appeared to be neatly dressed, well mannered and a personable, intelligent young man, who has won many friends among law enforcement officers. He is a good typist, a good automobile driver and dictator. His attitude towards his work was excellent and while assigned to this office, he could always be relied upon, and thus was considered an asset to this office. He conducted his investigations with dispatch and his investigations were considered thorough and satisfactory. There is no question about Agent Callahan's loyalty to the Bureau.

RE: NICHOLAS P. CALLAHAN
Special Agent (A)

Dear Sir:

Reference is made to Bureau letter dated July 9, 1940, inquiring as to the accounting experience and ability of the above-named Agent.

This is to advise that Special Agent Callahan since his arrival in this office on February 1, 1940, has worked with supervision on bankruptcy cases exclusively, handling each and every phase of those cases. Agent Callahan, however, has had no experience in other types of accounting cases, in view of the fact that he is one of a special squad designated exclusively to bankruptcy cases. Agent Callahan is qualified at the present time to conduct bankruptcy investigations without assistance.

Very truly yours,

Dear Sir:

It is imperative that all Special Agents qualified in accounting receive experience at the earliest possible date in all types of cases in which the Bureau conducts accounting investigations.

Agent Callahan reported to your office on February 1, 1940, and it is desired the Bureau be immediately advised as to the various types of accounting cases upon which he has assisted in the investigations subsequent to reporting to Newark. You are instructed to advise the extent of his participation and whether in your opinion he is now able to conduct accounting investigations without assistance.

SAC Untreiner indicated that this agent is assigned on a special squad handling the accumulated bankruptcy investigations, and is still inexperienced in diversified accounting work. He believes Callahan is a good man and has promise of developing into a good accountant. During the time he has been in the Newark Office under Mr. Untreiner, he has not testified in court, has not been on the range, has not participated in any raids, and has submitted very few reports, due to the fact that the members of this special bankruptcy squad were completing their investigation before submitting a report. He is a good automobile driver, a fair dictator; makes a good appearance and a good impression upon those he meets. Agent [] under whose supervision this agent has worked indicates that Callahan has a good understanding of the principles of accounting and believes as he gains experience, his analytical work will improve. He develops his investigations along logical lines, and his work papers are prepared in a very neat and orderly manner. His reports are prepared in good form and closely reflect the results of his investigation, and as he gains in experience he will require a minimum of supervision.

In January, 1940, SAC Conroy indicated that Callahan participated in one extortion plant, and for an inexperienced agent his work was about as good as could be expected. He has been making gradual progress, is quiet in demeanor, and not at all excitable. He appears generally to have made a favorable impression upon those with whom he has come in contact. He also commented on the overtime performed by this agent in the headquarters city, which was fair, but on the road trip it was noted he worked almost invariably until midnight or later. Mr. Conroy also indicated that Callahan had made very satisfactory progress on general investigative matters; that he displayed good common sense, is capable of handling an average investigation in a very thorough manner, and possessed the ability to diagnose the ordinary problems and arrive at logical conclusions.

Upon the conclusion of the new agents' school, Mr. Clegg stated that this agent is small in stature, but makes a pleasing appearance. He is perhaps only average in intelligence, but will be good in the handling of practical projects; will need to have his assignments explained rather clearly and will require considerable supervision at the beginning.

RECOMMENDATION

It is not believed that this agent has developed sufficiently along accounting lines to justify an increase in salary at this time.

REMARKS:

(Under this heading shall be set forth a digest of criticisms and conditions of significance which will reflect deficiencies, meritorious features, and special qualifications or disqualifications.)

I have rated Special Agent (A) N. P. CALLAHAN fair because the Newark office is his second office and he is assigned there on a special squad to handle accumulated bankruptcy investigations. He has not yet worked on regular accounting work and is still inexperienced in regular accounting investigations. I feel that he is a good man and has promise of developing into a good accountant for the Bureau. During the time he has been in the Newark office under my supervision he has not testified in court, has not been on the range, has not participated in any raids, and has submitted very few reports, due to the fact that the members of this special squad were completing their bankruptcy investigation before submitting a report. He is a good automobile driver and a fair dictator. He presents a good appearance and makes a good impression upon those he meets. I am unable at this time to state whether or not he has any executive ability. Special Agent (A) [redacted] has been supervising investigations of the members of this special squad and his memorandum concerning the progress made by Agent CALLAHAN is attached hereto. This agent is hard working and has the proper attitude toward the Bureau and his work. It is my opinion that he will develop into a good Accountant.

RE: N. P. CALLAHAN (A)
SPECIAL AGENT

This Special Agent attended the In-Service Training Course #1 which began on May 6, 1940 and concluded on May 18, 1940.

Callahan is 26 and has been in the field since last September. Before that he was a Bureau Clerk. During his training course last summer, Callahan indicated average intelligence and a need for considerable supervision at the beginning. He is small in stature, but has a rather good personality. His progress in the field seems to be fairly good and I think he is developing satisfactorily.

This Special Agent attained the following grades:

Hip Shooting	64
Practical Pistol Course	72
Shotgun	93
.30'06 Rifle	86
.351 Rifle	70

Dear Sir:

Special Agent (A) NICHOLAS P. CALLAHAN reported to the Newark Office from the Dallas Office on February 1, 1940 and was placed on a special bankruptcy squad under the supervision of Special Agent (A) [] of the Chicago Office.

I have been favorably impressed by Agent CALLAHAN'S appearance and demeanor about the office, but do not feel that I am qualified at this time to give the Bureau a full report on him. He has been engaged exclusively on bankruptcy work and has dictated very few reports.

It is requested that the Bureau allow me to defer the making of a full report on this Agent until he has had an opportunity to perform at least 30 days more work under the supervision of Agent [] I will then request Agent [] to furnish a memorandum concerning this Agent, to which I will add my views.

RE: Special Agent (A) N. P. CALLAHAN
Special Efficiency Report

Dear Sir:

There is being rendered herewith report on Agent CALLAHAN, who is departing from Dallas for the Newark Office on general assignment January 28, 1940.

There is not a great deal to add to the information contained in the thirty-day report rendered November 28, 1939, and the ninety-day report rendered on December 29, 1939. During the past month Agent CALLAHAN has had his time almost equally divided on assignments in the headquarters city at Dallas, Texas, and at Fort Worth, Texas. During that period he has handled one case before a United States Commissioner, has been a witness on a case before the United States Grand Jury, and has participated in one extortion plant. For an inexperienced agent, his work has been about as good as could be expected. He has been making gradual progress. There is nothing flashy about his work. He is quiet in demeanor, and is not at all excitable. He appears generally to have made a favorable impression upon those with whom he has come in contact.

I consider that he has made sufficient progress on general investigative work to recommend that he now be given accounting training. I anticipate that his progress will continue to be gradual, and that within a reasonable period of time he will develop into a substantial agent of the Bureau.

Very truly yours,

Accounting Training

Dear Sir:

Reference is made to letter to the Bureau dated December 29, 1939, advising that Agent CALLAHAN would necessarily have to be assigned to general investigative matters in view of the fact that another inexperienced Special Agent (A) was assigned to work with Special Agent (A) [redacted].

The other inexperienced Special Agent (A) has now received sufficient training, and it is found possible to assign Agent CALLAHAN to work with Agent [redacted] in order that he may receive appropriate training along the lines of accounting investigation. In connection therewith a special efficiency report will be rendered in forty-five days.

Re: Special Agent (A) NICHOLAS P. CALLAHAN
SPECIAL EFFICIENCY REPORT - 90 day

Dear Sir:

Agent CALLAHAN reported for duty at the Dallas Office on September 29, 1939. A delayed thirty-day report was rendered November 28, 1939.

During the past month Agent CALLAHAN has spent approximately two weeks in the headquarters city and approximately two weeks on a rather extensive road trip in the Texas Panhandle. He has been handling his work independently. In the headquarters city he has performed a fair amount of overtime work. On his road trip it was noted that he worked almost invariably until midnight or later.

Agent CALLAHAN has made very satisfactory progress on general investigative matters. He generally displays a good knowledge of the Bureau's work. He displays good common sense in developing cases and leads of an ordinary nature. He is capable of handling an average investigation in a thorough manner, and possesses the ability to diagnose the ordinary problems and arrive at logical conclusions. He has not required any unusual amount of supervision. His rough draft reports require little supervision, and are neatly typed. His dictation can be considered as generally good for an Agent of his experience.

He apparently has made a favorable impression on local peace officers and Federal officials. He is steady, unassuming, and presents an acceptable appearance. He has not testified in any proceedings since the rendition of the last report.

I consider that this employee has progressed to the point where he may be assigned to accounting cases with a competent, experienced Special Agent (A) in order to receive both commercial and bank accounting experience along the line of the Bureau's work in the field. In connection therewith I desire to point out that there is not a sufficient amount of that type of work in the Dallas Field Division to afford Agent CALLAHAN proper accounting experience. The only pending accounting work at the present time consists of three Court of Claims cases, which do not involve accounting work of a diversified nature. In addition, upon Bureau instructions, another Special Agent (A) of this office is presently assigned to the only experienced Special Agent (A) in this division. In view of these circumstances it is my recommendation that Agent CALLAHAN be transferred to some office where he may be in a position to secure proper accounting experience. Until that time it will be necessary to assign to him general investigative matters.

Re: Special Agent (A) NICHOLAS P. CALLAHAN
SPECIAL EFFICIENCY REPORT - 30 DAY

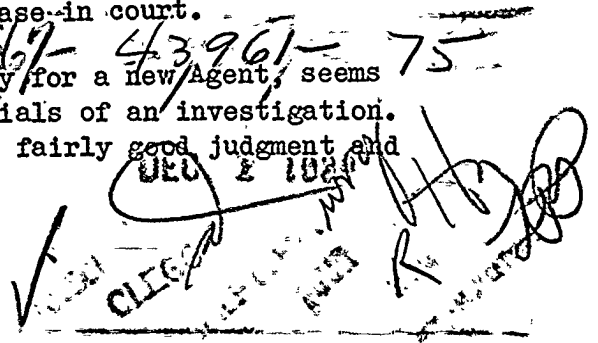

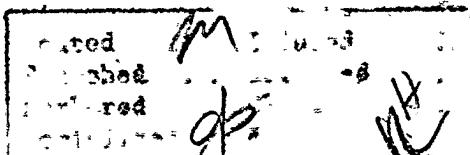

Dear Sir:

There is being rendered herewith thirty-day report on Agent CALLAHAN, who reported for duty at the Dallas Office on September 29, 1939. In connection therewith I desire to point out that I have personally been absent from the district the majority of that period.

Agent CALLAHAN when first assigned to the office was given the opportunity of accompanying experienced Agents during interviews with prisoners, prospective defendants, and white slave victims. He was gradually allowed to take over such interviews. Approximately one-half of his time has been spent in the headquarters city; the other half of his time has been spent on road trips away from the headquarters office, at first when he had daily contact with an experienced Agent and later on independent assignments.

Agent CALLAHAN has handled the general run of cases. He has handled four cases before a United States Commissioner, two involving violations of the National Motor Vehicle Theft Act, one involving a White Slave case, and one involving a larceny from Interstate Shipment. He personally presented three of these cases to the United States Grand Jury. He has had no experience in the trial of a case in court.

Agent CALLAHAN, particularly for a new Agent, seems to have knowledge of pertinent essentials of an investigation. His reports reflect that he possesses fairly good judgment and

DIRECTOR

secures material facts. He has an inclination to be too brief in his report-writing. For a new Agent he should render reports more comprehensive. He operates a typewriter in a satisfactory manner. His rough draft reports are generally quite acceptable. His dictation is fair.

Agent CALLAHAN operates an automobile in a satisfactory manner. His firearms scores in this district have been good. He handles technical equipment in a satisfactory manner for a new Agent. At a recent conference of Special Agents he received a grade of 100 on both the written examination and his notebook. He performs a fair amount of overtime.

Generally, I consider Agent CALLAHAN to be a substantial individual. He presents a pleasing appearance. He seems to have gotten along well with Federal officials and local law enforcement officers.

The development of this Agent appears to have been satisfactory.

Re: FRANK WILFORD LAURENTE
SPECIAL AGENT APPLICANT

Dear Sir:

Please refer to report of Special Agent (A)
H. P. CALLAHAN dated at Dallas, Texas, October 22, 1939.

I am not entirely satisfied with the report of Agent CALLAHAN, and so informed him at the time that teletype message was directed to the Bureau on October 20, 1939. I informed him at that time that had he been more resourceful he would have been able to develop some of the faults of the applicant, as well as all of his virtues. It had been my intention to have further investigation conducted in the vicinity of Eastland and Ranger, Texas. It has been determined, however, since that time that investigation conducted by the San Antonio and Birmingham Offices will in all probability preclude the appointment of this individual. Accordingly, no further investigation will be conducted by the Dallas Office.

Dear Sir:

Special Agent (A) N. P. Callahan will complete his course of training at Washington on September 26, 1939, and has been ordered to report to your division for general assignment.

This employee has had no experience in this Bureau in either general or accounting investigations. It is consequently my desire that for a period of three months from the date of his reporting to your division this employee be given general investigative training in the work heretofore assigned to Bureau Special Agents. You should devote your personal attention to the training and supervision of this employee, and at the expiration of thirty days you should transmit the usual thirty-day report, indicating your opinion in detail as to the work and attitude displayed by him. At the expiration of the three-month period a further report should be submitted by you.

At that time, in the event the employee has progressed in the proper manner, it is the Bureau's desire that he be assigned to accounting cases with a competent, experienced Special Agent (A), and receive in this manner both commercial and bank accounting along the line of the Bureau's work in the field.

Further reports should be submitted by you in due course, in order that the Bureau may be fully informed as to the progress of this employee. A report should be submitted to you by the Special Agent (A) to whom this employee is assigned at the conclusion of each investigation, a copy of which is to be forwarded by you to the Bureau.

MEMORANDUM FOR MR. EGAN

Re: James Johnson of
Milwaukee, Wisconsin

The interviewer called at the Raleigh Hotel today and contacted Mr. H. T. O'Connor, a reference given by the above applicant. Mr. O'Connor is connected with the Topp Oil Company of Milwaukee, Wisconsin and may be reached through this company at Milwaukee. Mr. O'Connor is here for a brief visit and will be here approximately two more weeks, during which time he may be contacted at 2000 Connecticut Avenue.

Mr. O'Connor stated he has known the above applicant for approximately 14 years, having seen him last about two or three weeks ago. He states that he is about 31 years of age, married and has two children. He went to high school at Marquette Academy and attended Marquette University from 1925 to 1930, receiving his LLB. His grades while attending Marquette were better than average. After leaving Marquette University the above applicant started the practice of law by himself and is at present following that line. While attending school, however, the applicant was employed by the Wisconsin Telephone Company. His character, according to Mr. O'Connor, is above reproach. He is industrious and makes friends easily. He is better than average in intelligence and drinks moderately. He has a brother though, William Johnson, who lives with the applicant, who has served two years in the Wisconsin State Prison at Waupun, Wisconsin, on a charge of forgery. His health, according to Mr. O'Connor, is very good, knowing of no defects in any way. He does not wear glasses and has never heard him complain of any type of heart trouble and his hearing is good. His mother and father are both citizens of the United States, his father being secretary of the Land Development Corporation whose offices are in Milwaukee, Wisconsin, and whose operations are mainly in the state of Montana having to do with the leasing of land in that state.

MEMORANDUM FOR MR. EGAN

RE: N. P. CALLAHAN
Special Agent (A) Applicant

Applicant interviewed the writer in the lobby of the Hotel Raleigh on May 20, 1939, in connection with the usual supposititious interview required of Special Agent applicants.

Mr. Callahan who was neatly dressed and neat in his appearance, made a very good approach and introduction. It might be noted that although this applicant is presently assigned to the Chief Clerk's Office where he has occasion to contact the writer several times daily, this had no effect whatsoever upon him and he in no way attempted to treat the interview lightly or take advantage of the appointment. He was average in poise, assurance and self confidence and was at ease throughout the interview which was conducted in a very thorough manner. His questions were logical and material and were also presented in a tactful and courteous manner. It was noticed that he properly tipped the bell boy through whom he located this Agent in the hotel lobby.

The memorandum which Mr. Callahan has submitted has been reviewed and accurately reports the information brought out as a result of his interrogation. He is rated good on both his memorandum and on his interview.

Respectfully,

H. T. O'Connor

There is submitted a thirty-day report covering the above mentioned employee, assigned to duty in the Chief Clerk's Office on August 3, 1935.

To the best of my recollection, I have submitted a previous thirty-day report covering this employee. However, I have been informed by the Personnel Files that they have no record of this report.

Since Mr. Callahan has been assigned to this office he has been assisting Mr. Ross in the auditing and reviewing of vouchers. He is very conscientious; devotes long hours to his duties; is willing and is entirely loyal to the Bureau. At the present time he is a student in Accountancy, which is a benefit to him in his present assignment. I believe we have finally found the employee who will be able to take over the voucher work in the event of any re-assignment of duties of Mr. Ross. I class Mr. Callahan above the average of the new employees assigned to this office.

It is respectfully suggested that he be re-allocated from Caf 1 at \$1260 to Caf. 2 at \$1440.

MEMORANDUM FOR MR. EDWARDS

Re: Nicholas P. Callahan - Personnel Matter

Mr. Nicholas P. Callahan, Grade CAF-1 assigned to the Laboratory recently had a talk with me regarding his work. He indicated that he was studying accountancy and has already completed a year at this work. He told me that he felt that because of this background, his efforts might be better directed in some other section of the Bureau than in the Laboratory and that he was particularly interested in the possibility of getting assigned to clerical work in the Chief Clerk's office where he might have an opportunity to use his accountancy. Mr. Callahan informed me that he likes his work in the Laboratory very much but that he feels he might be more valuable to the Bureau in another capacity.

This information is submitted for your consideration. I have found Mr. Callahan to be industrious, alert, and willing to learn. He is at present, as you know, engaged in messenger duties in the Laboratory. Should he be transferred, it would be necessary to have a messenger replace him and if you have any eligible messengers who have a background more along scientific training, it might be well to consider this factor at the time one is assigned here.

MEMORANDUM FOR MR. TOLSON

RE: [REDACTED]

There is submitted herewith a thirty day report covering the above mentioned employee.

[REDACTED] was assigned to the Chief Clerk's Office on June 27, 1935, and since that time has been assigned to assist Mr. Ross, Voucher Clerk. During the period that [REDACTED] has been assigned to voucher work, he has demonstrated that he is entirely loyal, conscientious and a very hard worker. He has performed considerable overtime and tries to the best of his ability to master the work to which he has been assigned. His development has not been as rapid as is usually expected of clerks in this office. It appears that he does not have a retentive memory and that it is necessary to explain details of vouchers time and again. It is not believed that he will develop to such an extent that he could relieve Mr. Ross and take over the handling of vouchers.

b6
b7c

It is my intention to replace [REDACTED] with Mr. Callahan in the event Mr. Callahan is transferred to the Chief Clerk's Office from the Identification Division. In that case, [REDACTED] could be reassigned to the Identification Division.

I want to mention that there is no question whatsoever regarding Mr. Drocch's sincerity, loyalty or interest in his work, it being my opinion that he might develop more rapidly in work of a routine nature.

Respectfully,

W. R. Glavin.

MEMORANDUM FOR THE DIRECTOR

Mr. Steve Callahan called on Saturday, with his son, Mr. Nicholas P. Callahan, who has applied for appointment as a Messenger.

I told Mr. Callahan that you were giving his son's application your personal attention, and that he could rest assured the matter would receive consideration when a vacancy occurs.

I was rather favorably impressed with the applicant. He seems to be conscientious, and sincere in his desire to secure employment which will enable him to continue in school. I think he would make a desirable messenger appointee.

Respectfully,

Nicholas P. Callahan
August 10, 1934.

Industry in America started as a matter of small enterprises and individual proprietorship. At the beginning of our Government the overwhelming majority of our people were small farmers and our manufacturers were confined to meeting the extremely modest needs of such a simple population. Then with the great era of steam, of the factory, of the corporation came a second period of concentration of ownership and resulting power. Control over our railroads and then new giant manufacturing industries became concentrated in comparatively few hands and this process went on until it seemed likely that the entire power over industrial America might eventually become vested among a handful of men. The political life of America for the last generation has been colored by fears and forebodings which that situation evoked. Now, almost without knowing it, American industry has entered upon a third period. The ownership of our business, particularly of our public utilities, is being expanded. The stock and other securities which represent that ownership are being more and more widely held among greater and greater numbers of our citizens. The change has been so marked that it is amounting almost to a revolution and yet it has come so quietly that many of us had not realized that it was on its way. Just as public opinion controls the operation of our laws, so it more and more controls the conduct of our industries. Upon that public opinion the new proprietorship is producing a most potent change.

We suggest that the supervision of the anthracite industry provide for the publication of reliable weekly reports of sales by the operators. The anthracite-consuming section of our country should be divided into sections. The operators should then report the tonnage sold into each district together with the purchase price. This would give the necessary publicity for checking excessive retail margins. Retailing should be reorganized on the basis of efficiency so as to bring about the minimum ton cost of handling, storing, and delivery. The number of retailers should be reduced to a minimum so that adequate profit will come only from handling a large tonnage. The retailer should encourage purchase by the consumer in dull seasons by means of adequate differentials. The consumer should benefit proportionately from any facilities he may install that will reduce the cost of delivery. We suggest also that all brokers be licensed and that resales be prohibited. The transportation charges on domestic fuel should be based upon the cost of the service. Fuel rates should not be expected to make up losses from carrying other commodities.

MEMORANDUM FOR MR. TOLSON.

Please be informed that by reference from Mr. Stephen B. Callahan, Chief Deputy U. S. Marshal of this city, I interviewed his son, Nicholas P. Callahan, age 21, with regard to securing a position as a Messenger. Mr. Callahan graduated from Eastern High School and has had two years' prep work for West Point but was disqualified because of his physical condition at that time. He is presently employed at the Second National Bank receiving a salary of \$60 per month. If he is successful in securing employment, he states that he would like to go to school with the thought of eventually becoming a Special Agent.

I furnished him with an application blank and explained to him the situation concerning appointments. I was rather favorably impressed with this young man.

Respectfully,
